Catalogue

Garden Bridge specialise in the manufacturing and selling of quality pedestrian and light vehicle bridges, for a multitude of applications and uses.

These include flat bridges and arched bridges that are suitable for pedestrian use, and look great, enhancing any garden or outdoor space.

We have an extensive range of foot bridges to buy online all with Free Delivery to mainland UK and prices starting from £188.

Larger bridges and custom bridges can be built to requirements.

We craft and deliver hundreds of bridges throughout the UK and Europe and beyond.

All of our bridges are constructed from pressure treated wood, available in two shades natural or brown option. Pressure treated wood is durable can be left outside all year round and will not require painting, although painting does further increase its life span.

The decking boards that form the walkway are grooved to prevent your feet slipping in wet weather, we also offer anti slip boards option to further increase traction in all weather conditions.

All screws and other fixings used on our bridges are treated to prevent corrosion.

Monet Range

Monet Garden Bridges feature 2 side rails along each side, they can be painted to suit their surroundings or left unpainted. Great for access over water or a garden feature, they are also very attractive in any setting.

Please see below sample pictures of the Monet range. Prices can be found on the last page of the catalogue. More details can be found on our website GardenBridge.co.uk

Peking Range

Peking bridges have low profile side rails, for an ornamental and characterful look.

Please see below sample pictures of the Peking range. Prices can be found on the last page of the catalogue. More details can be found on our website GardenBridge.co.uk

Koi Range

Koi bridges are designed for Koi ponds but look great in any setting. Suitable for pedestrians they make a stunning garden ornament that also has a functional use.

Please see below sample pictures of the Koi range. Prices can be found on the last page of the catalogue. More details can be found on our website GardenBridge.co.uk

Imperial Range

Imperial style arched bridges, available in a selection of sizes. Dual side rails, customisable with options like LED lights and suitable for pedestrian access.

Please see below sample pictures of the Imperial range. Prices can be found on the last page of the catalogue. More details can be found on our website GardenBridge.co.uk

Count Range

Arched Count bridges, practical wooden foot bridges that enhance the look of gardens and ponds. Please see below sample pictures of the Count range. Prices can be found on the last page of the catalogue. More details can be found on our website GardenBridge.co.uk

Duke Range

Stylish bridges with sloped hand rails, suitable for pedestrian usage. Can be customised with anti slip boards and LED lights.

Please see below sample pictures of the Duke range. Prices can be found on the last page of the catalogue. More details can be found on our website GardenBridge.co.uk

Prince Range

The Prince flat bridge range brings the practical use of a wooden walkway or crossing while looking very natural in most garden settings.

Please see below sample pictures of the Prince range. Prices can be found on the last page of the catalogue. More details can be found on our website GardenBridge.co.uk

Rope Range

Rope bridges are a beautiful addition to any garden, they have thick side ropes that gives them a fun unique look.

Please see below sample pictures of the Rope range. Prices can be found on the last page of the catalogue. More details can be found on our website GardenBridge.co.uk
